

MANAGING PRIVACY & LAW FIRM RISK

Speaker: Kelly Matoney - JD/MBA/CIPM, Principal

Program Description

- Discussion of key drivers making privacy management and compliance a top priority (e.g., regulatory changes, increasing use of Artificial Intelligence (AI) and the Internet of Things (IoT), third party-processing issues, cost and impact of data breaches, etc.).
- Review of the current legislative and regulatory landscape (e.g., relevant recent and evolving laws such as the California Consumer Privacy Act, U.S. state-specific cybersecurity & breach notification laws, potential U.S. federal bills/policies being considered, and key global requirements such as the European Union's General Data Protection Regulation (GDPR))
- Tactical advice and recommendations to manage privacy compliance and protect personal data within your firm

Kelly Matoney - JD/MBA/CIPM, Principal
